ABOUT ME

Computer Science student at BINUS University Malang with a strong interest in Software Development. Experienced in building end-to-end solutions through academic and personal projects, including leading a team as Scrum Master/PM on a Minimarket Information System and independently developing PawCation, an AI-integrated pet care platform. Currently serving as Manager of Publication & Marketing at HIMTI @Malang and Teaching Assistant for Database Technology and Computational Physics. Combines technical skills, team leadership, and mentoring to build scalable, user-focused software.

EDUCATION

LEADERSHIP & TEACHING EXPERIENCE

Binus University Malang, Indonesia
Freshmen Partner – Student Mentorship Program *Sep 2025 - July 2026*

- Mentored and supported new students throughout their first academic year to help them adapt to university life.
- Provided academic guidance, shared campus resources, and assisted with personal and organizational adjustment.

Teaching Assistant – Database Technology *Sep 2026 - Present*

- Guided students in relational database design and normalization during two weekly laboratory sessions alongside a co-instructor.
- Assisted students in writing SQL queries (DDL/DML) and applying relational algebra concepts through hands-on exercises.
- Supported students in understanding transaction management and database interaction principles.
- Prepared and graded practical lab assignments and query-based assessments.

Teaching Assistant – Database Technology *Sep 2026 - Present*

- Guided students in simulating basic electrical circuits (resistors, inductors, capacitors) using Python during two weekly laboratory sessions alongside a co-instructor.
- Assisted students in applying Electricity & Magnetism concepts to quantitative problem-solving.
- Supported students in translating theoretical circuit analysis into working Python simulations.
- Prepared and graded practical lab assignments and simulation-based exercises.

Himpunan Mahasiswa Teknik Informatika (HIMTI) Malang, Indonesia
Manager – Publication & Marketing HIMTI @Malang *Feb 2026 - Present*

- Led a publication & marketing team, overseeing content ideation and production for HIMTI's organizational and event promotions.
- Reviewed and approved content submissions from team members before publication.
- Developed content distribution strategies to maximize visibility of events within and beyond the BINUS community.
- Coordinated with the Design & Development division on visual assets (posters, Instagram feeds) to ensure alignment with promotional strategy.

Event Head – Funtastic *Feb 2026 - Mar 2026*

- Led end-to-end planning for Funtastic, a faculty-wide bonding and iftar (buka bersama) event for SOCS Malang.
- Managed event logistics, committee coordination, and internal meetings across divisions.
- Reviewed and approved promotional content and design assets for the event.
- Managed event budgeting, accountability reporting (LPJ), and timeline tracking using spreadsheet-based documentation.

VOLUNTEER EXPERIENCE

Initiator, HIMTI Luminova Coaching Clinic UI/UX and Business Model Canvas *2025*

- Initiated and organized a community service program providing UI/UX and Business Model Canvas training to support entrepreneurial development and digital literacy.

Volunteer, TFI Friend Project B29: Community Outreach Program *2025*

- Planned and implemented social service activities for one community group as part of the TFI Friend Project B29 initiative.
- Supported broader efforts to promote social awareness and community engagement.
